

Portfolio

Below you will find some of the websites I have constructed and currently host. Click on an image to enlarge it.

RonForHouse.com

{rokbox}images/stories/portfolio/ronforhouse.jpg{/rokbox}RonForHouse.com is a political website for Ron Sheppard who is running for the House District 28 seat. For this website we wanted to focus on getting viewers to the key content as quickly as possible. To do this we used a large horizontal menu with the four most important areas right up front. The use of blogging and video provides for 24/7 campaigning. This website also utilizes RSS feeds in relation with a third-party website (feedburner.com) to allow visitors to "sign up" for updates. Each day a new blog entry is posted it will automatically email all the subscribers with the new content.

SweetInspirationsCakes.com

{rokbox}images/stories/portfolio/sweetinspirationscakes.jpg{/rokbox}SweetInspirationsCakes.com is a custom order wedding cake creator. The owner wanted to be able to display her cakes to show her skills as a cake maker. Instead of using a boring image gallery like most other cake websites I incorporated lighbox technology which is also used here when you click on the image to the left. Using lightbox technology makes images "jump" out of the site. This creates a very appealing view of the image as it is the only thing you are looking at. You are only looking at one picture at a time, not several at a time. You will notice more details when looking at only one image at a time.

OSUCR.com

{rokbox}images/stories/portfolio/osucr.jpg{/rokbox}OSUCR.com was the previous official website for the Oklahoma State University College Republicans. During my time at OSU I was the Technology Director for OSU CR. Part of my duties included creating and maintaining the organizations website. This was the first true multi-user website I created. All of the OSU CR Officers had access to blog or write articles and publish them directly to the website. The site also contained a photo gallery, an online schedule of events, full-featured newsletter with over 500 subscribers, and a monthly poll. This site is no longer in use and is for sale.

AltiusConsultingLLC.com

{rokbox}images/stories/portfolio/altiusconsultingllc.jpg{/rokbox}AltiusConsultingLLC.com is a website for a consultant who needed a website to more firmly establish his company. This site is very simply with a brief overview of what his company does, a short biography about himself and a contact form. He also wanted to use a poll to help market himself towards the majority of visitors to his website.
